

FIVE WAYS TO NOWHERE

HI FUELED

ROCK N ROLL BAND

BIOGRAPHY

Five Ways To Nowhere is a powerful blend of loud guitars, aggressive and groovy riffs, a scratchy voice with catchy melodies all driven by a lethal rhythm section.

Our music is a mix of Hard Rock and Metal that creates an explosive and melodic sound in the wake of bands like Halestorm, Guano Apes, Papa Roach and others.

We've poured our hearts and souls into every live gig since 2015, bringing around Europe a right-to-your-face Rock Show, people can't forget.

Since our founding, we melt faces in Italy, Switzerland, France, Belgium, The Netherlands, Austria, Germany, Czech Republic and Slovenia.

We shared the stage with DAVID ELLEFSON from MEGADETH, with THUNDERMOTHER, MANOWAR, HAMMERFALL, TURBOBIER and NANOWAR OF STEEL.

We also hit the stages of major festivals like **Hellfest** in France (2022), **Masters of Rock** in Czech Republic (2017 and 2022), the **Swiss Rock Cruise** (2021) and **Riverside Aarburg** in Switzerland (2023), **Hell's Lake** in Slovenia (2024)

Hi-Fueled Rock N Roll, a loud show and an insolent punk attitude: that's Five Ways To Nowhere.
